Career Objective

Motivated and detail-oriented graduate seeking an entry-level opportunity to apply academic knowledge in real-world environments while contributing to organizational growth and continuously improving through learning and experience.

Education

- **Qis College of Engineering and Technology** *2022 - 2026*
  Bachelor of Technology (E.C.E),Andhra Pradesh CGPA : 8.1
- **N.R.I Junior college** *2020 - 2022*
  Board of Intermediate Education,Andhra Pradesh CGPA : 6.9
- **Z.P High School** *2019 - 2020*
  Board of Secondary Education,Andhra Pradesh CGPA : 7.8

Skills

- **Programming Languages** : Python
- **Tools & Platforms**: Git, GitHub, VS Code, Arduino IDE
- **Backend Development**: Django
- **Databases**: MySQL, MongoDB
- **Soft Skills**: Time management , Adaptability , Teamwork

Experience & Training

Embedded Systems Workshop *Ongole,Andhra Pradesh*
ByteXL | Qis College of Engineering and Technology Jun 2024

- Completed hands-on training in Embedded C and microcontroller programming.
- Worked with Arduino and sensors to build basic embedded applications.
- Gained practical experience in hardware-software interfacing and circuit design.

Projects

•QIS Virtual Campus Guide (Full Stack Web Application) *Ongole,Andhra Pradesh*
Technologies: Python, Django, SQLite, HTML5, CSS3, Bootstrap 5, JavaScript Jul 2025 - Aug 2025
https://github.com/venkatesh-burra/College-virtual-campus-guide.git

– Developed a Django-based college information portal with course details, fee structure, and virtual campus tour.
– Built responsive web pages using HTML5, CSS3, Bootstrap 5, and JavaScript. data and student admission enquiries.
– Implemented Django ORM, ModelForms, SQLite, and CRUD operations for enquiry management.
– Managed application content through the Django Admin Panel with template inheritance and Function-Based Views.

•Air Quality Monitoring and Automatic Ventilation System (IoT) *Ongole, Andhra Pradesh*
Technologies: ESP32, Embedded C, Sensors, ThingSpeak Jan 2025 - Apr 2025
https://github.com/venkatesh-burra/Air-Quality-Monitoring-and-Ventilation-System-IOT

– Developed an IoT-based system to monitor real-time air quality parameters.
– Integrated MQ135, PM2.5, and DHT11 sensors for environmental data collection.
– Automated ventilation system using relay module based on sensor conditions.
– Visualized real-time data on ThingSpeak dashboard for monitoring and analysis.

Certifications & Achievements

- **Python Programming**: Codetantra IT Solutions Jul 2025
- **Internet of Things (IoT)**: Cisco Networking Academy May 2025
- **TCS iON Career Edge**: Young Professional Apr 2026
- **Embedded Systems Workshop** : ByteXL Jun 2024
