

CAREER OBJECTIVE

Motivated and detail-oriented graduate seeking an entry-level opportunity to apply academic knowledge in real-world environments while contributing to organizational growth and continuously improving through learning and experience.

EDUCATION

• Qis College of Engineering and Technology	2022 - 2026
Bachelor of Technology (E.C.E),Andhra Pradesh	CGPA : 8.1
• N.R.I Junior college	2020 - 2022
Board of Intermediate Education,Andhra Pradesh	CGPA : 6.9
• Z.P High School	2019 - 2020
Board of Secondary Education,Andhra Pradesh	CGPA : 7.8

- SKILLS
- **Programming Languages** :Python, Java
 - **Tools & Platforms**: Git, GitHub, Visual Studio Code, Jupyter Notebook, Arduino IDE
 - **Backend Development**: Flask, Django
 - **Databases**: MySQL, MongoDB
 - **Soft Skills**: Time management , Adaptability , Teamwork

- TRAININGS
- Python Full-Stack Training**

Codetantra IT Solutions

Ongole,Andhra Pradesh

May 2025-Jul 2025

 - Trained in Python, Flask, and Django with a focus on real-world application development.
 - Applied concepts through hands-on projects and practical problem-solving exercises.
 - Built beginner-level web applications to reinforce backend and frontend integration.
 - **Embedded Systems Workshop**

ByteXL / Qis College of Engineering and Technology

Ongole,Andhra Pradesh

Jun 2024

 - Completed hands-on training in Embedded C and microcontroller programming.
 - Worked with Arduino and sensors to build basic embedded applications.
 - Gained practical experience in hardware-software interfacing and circuit design.

- PROJECTS
- College Admission Campus Tour (Full-Stack Web Application)**

Technologies: Python, Flask, MongoDB, HTML5, CSS3, Jinja2

Ongole,Andhra Pradesh

Jul 2025 - Aug 2025

 - Developed a full-stack web application to streamline campus admission and information access.
 - Implemented RESTful routing, form handling, and CRUD operations using Flask.
 - Designed dynamic and responsive user interfaces using Jinja2 templates.
 - Optimized data storage and retrieval using MongoDB for efficient performance.
 - Air Quality Monitoring and Automatic Ventilation System (IoT)**

Technologies: ESP32, Embedded C, Sensors, ThingSpeak

Chennai,Tamil Nadu

Jan 2025 - Apr 2025

 - Developed an IoT-based system to monitor real-time air quality parameters.
 - Integrated MQ135, PM2.5, and DHT11 sensors for environmental data collection.
 - Automated ventilation system using relay module based on sensor conditions.
 - Visualized real-time data on ThingSpeak dashboard for monitoring and analysis.

- CERTIFICATIONS & ACHIEVEMENTS
- **Python Programming**:Codetantra IT Solutions

Jul 2025
 - **Internet of Things (IoT)**:Cisco Networking Academy

May 2025
 - **TCS iON Career Edge**:Young Professional

Apr 2026
 - **Embedded Systems Workshop** : ByteXL

Jun 2024
